Resolution No. 184
Date: September 16, 2014
Page: 1 of 3
Subject: Increase Safety Standards for Rail Tank Cars
Purpose: Support
Dollar Amount: _____
Prepared By: Susan Connelly, RMC

Offered by: Riquelme
Seconded by: Brophy

Certified as a true copy of a Resolution adopted by the Borough of Dumont on above date at a Regular Meeting by: Susan Connelly

Susan Connelly, RMC, Municipal Clerk
Borough of Dumont, Bergen County, New Jersey

RESOLUTION SUPPORTING INCREASED SAFETY STANDARDS FOR RAIL TANK CARS THAT TRANSPORT OIL, ETHANOL, AND OTHER FLAMMABLE LIQUIDS THROUGH DUMONT, AND CALLING ON FEDERAL U.S. PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION TO ADOPT AS SOON AS POSSIBLE IN 2014 RULES REQUIRING SAFETY RETROFITTING OF EXISTING RAIL CARS

WHEREAS, public safety is the Borough of Dumont's primary goal; and

WHEREAS, rail freight operations impact thousands of communities all across regions of the United States of America; and

WHEREAS, rail lines through Dumont pass near the homes of thousands of Dumont residents and near numerous businesses and recreation sites; and

WHEREAS, safe rail operations are of critical interest to local governments, and there is a demonstrable need for (1) preventing catastrophic rail accidents that have occurred most recently on four locations in Canada and the United States; and (2) local governments to provide primary emergency response to rail accidents that happen with their jurisdiction; and (3) local governments and communities to have a mechanism to recover the clean-up costs, environmental remediation costs, medical expenses, and any other damages and/or claims that are not reimbursed by the responsible party; and

WHEREAS, rail transports 11% of the nation's oil, according to the Association of American Railroads; and

WHEREAS, according to the Association of American Railroads, the transport of crude oil by rail tank car has increased from 9,500 carloads in 2008 to about 400,000 carloads 2013, and is likely to increase still further; and

WHEREAS, there are 92,000 rail tank cars carrying oil, ethanol, and other flammable liquids, with the vast majority (85%) not meeting puncture-resistance and other standards that apply to new tank cars; and

WHEREAS, in 2011, railroads and shippers voluntarily established tougher standards for new tank cars, but only 15%, approximately 14,000 rail tank cars, of the tank cars in use meet this standard; and

WHEREAS, the railroad industry, which does not own the majority of tank cars authorized to travel on the nation's railways, has recently urged federal regulators to toughen the existing standards for new tank cars and require that existing tank cars used to transport flammable liquids, including crude oil, be retrofitted with advanced safety-enhancing technologies, or if not upgraded, aggressively phased out; and

WHEREAS, improvements to the rail infrastructure as well as rail operational and maintenance safety requirements should continue to be a priority; and

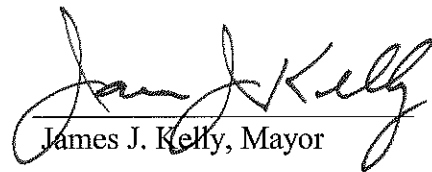

WHEREAS, there is compelling rationale for making long overdue changes in safe rail operations whether through retrofitting of existing rail tank cars or through increased standards on new tank cars or both.

NOW THEREFORE BE IT RESOLVED by the Mayor and Council of the Borough of Dumont that the Borough of Dumont supports the rapid implementation of increased safety standards for rail tank cars, and encourages efforts of industry to retrofit or replace rail tank cars as soon as possible to meet puncture resistant and other safety standards. We further call upon the Federal U.S. DOT's Pipeline and Hazardous Materials Safety Administration to adopt as soon as possible in 2014 rules requiring an accelerated retrofitting of existing cars to an equal standard to

that required of newly manufactured rail cars. We further call on Federal officials to support and assist local governments in appropriate enhanced emergency response planning and emergency response capacity for rail tank cars with flammable liquids.

BE IT FURTHER RESOLVED, that the Borough of Dumont supports legislative efforts at the State level to identify communities at particular risk for spills and accidents from added freight traffic carrying crude oil, and to provide the resources for identified communities to adequately mitigate and manage these new or heightened risks.

BE IT FURTHER RESOLVED, that a copy of this duly adopted resolution be forwarded to Senate President Stephen Sweeney, Assembly Speaker Vincent Prieto, the Borough of Dumont's State Legislative representatives, Governor Chris Christie, and the Honorable James S. Simpson.

James J. Kelly, Mayor
